

I think the majority of Wisconsin citizens have made it quite clear that they do not want to be solicited over the phone at home. It is an invasion of our privacy and our homes. Leave the Wisconsin No Call List Rule alone!!!!!! I have enjoyed the peace and quiet since being on the list. I can now eat dinner in peace and if the phone rings now I can trust that it is a call that I want to take. The federal rule should be strengthened to match Wisconsin's law and the fines for violating the law need to be stiffer. Keep solicitors out of our homes and off our private phone lines.
